

Competition Facility Survey Checklist

This checklist is intended to ensure each facility survey is completed as required by the Facility Rules and Guidelines of Swimming Canada. For complete information regarding the rules and the accepted dimensional tolerances refer to the Facility Rules and Guidelines of Swimming Canada.

*Note: A facility survey must be submitted for each racing configuration and/or start end available (for pools that have the ability to be used for both 25m or 50m racing).

This checklist is to be paired with the 'Facility Survey Template'.

Information Required			
Pool Information	Name of Pool <input type="checkbox"/>	Backstroke Flags	Distance of Flags to End Walls (Indicated on pool drawing) <input type="checkbox"/>
	Name of Facility <input type="checkbox"/>		
	Mailing Address of Pool <input type="checkbox"/>		
Lane Length¹	Length of each lane from:	False Start Rope	Distance of Rope to Backstroke Flags on Start End (indicated on pool drawing) <input type="checkbox"/>
	Left side of lane <input type="checkbox"/>		
	Centre of lane <input type="checkbox"/>		
	Right side of lane <input type="checkbox"/>		
Lane Width	<i>Width of each lane from:</i>	Drawings	Pool <input type="checkbox"/>
	Start end <input type="checkbox"/>		Scale of Pool <input type="checkbox"/>
	Turn end <input type="checkbox"/>		Starting Block <input type="checkbox"/>
Depth	<i>Diving Depth</i>	Note section	Measurements are in meters to 3 decimal points <input type="checkbox"/>
	Depth at 1 metre <input type="checkbox"/>		Description of where measurements are taken from <input type="checkbox"/>
	Depth at 5 metre <input type="checkbox"/>		Legend of pool drawing <input type="checkbox"/>
	Depth at 6 metre <input type="checkbox"/>		Date of survey <input type="checkbox"/>
	<i>Depth Elsewhere</i>		Survey datum <input type="checkbox"/>
	Depth at Turn Wall <input type="checkbox"/>		
Height of Block²	Front to Top of Water <input type="checkbox"/>	Stamp of Surveyor	<input type="checkbox"/>
	Back to Top of Water <input type="checkbox"/>		

¹ Competition facilities must provide length with touch pads installed, pressing measurement tools into touch pads to provide most accurate measurements.

² May be height of end wall or bulkhead if blocks not used.
