

## Summer Camp Requirements

Historically, swim clubs have provided summer camps as a service to the competitive swimming community to provide the opportunity for swimmers to learn and develop their skills during a day camp format.

### Definition of Day Camps

A summer day camp will offer weekly registration for half-day or full-day programming and will also offer activities other than swimming and/or dry land training.

### Swim Club Day Camp Requirements

- The club must have submitted a return to swimming club declaration.
- The club must have a written plan available and ensure that all participants and coaches are aware of all requirements and guidelines. The plan should include a training session procedure and must be posted in an accessible location, such as the club's website.
- Confirm that all swimmers are currently registered with Swim Alberta.
- Confirm that all participants have completed an Acknowledgement and Assumption of Risk.
- Camps should be restricted to regional participation, travel outside the region and province is not recommended.
- Follow the Alberta Government sector guidance for Day Camps.
- Follow and adhere to all requirements of Alberta Health Services, Swim Alberta as well as any local or facility requirements.
